Naperville Park District
Created in 1966 through a public referendum, the Naperville Park District is an independent, municipal agency that is committed to enriching community life through recreational experiences. As a leader in providing leisure experiences that enhance the quality of life for the community, the District maintains and operates more than 2,500 acres with 150+ parks and facilities and provides more than 900 recreational, arts and environmental programs and special events annually. Included within the District’s operations are two championship golf courses, a multitude of courts and sports fields, two inline skating and skateboarding facilities, the Millennium Carillon, a paddle boat quarry, historic Centennial Beach, and the beautiful Riverwalk.

Park Board of Commissioners and Executive Director
The agency is governed by a seven member board, elected at-large by Naperville voters, and each serves a four-year term. The Executive Director, who is hired by the Board to manage the day-to-day operations of the District, oversees a staff of 100+ full-time professionals and more than 1,000 part-time and seasonal employees.

2008 Park Board of Commissioners
Front row: Suzanne Hart, Andrew Shaffner, Kristen Jungles
Back row: Mary Wright, Ronald Ory, Gerry Heide, Marie Todd
On behalf of the Naperville Park District, I am pleased to present our 2008 Annual Report. Not only does this document include information regarding our financial health, but it provides an overview of several different areas of the organization, and highlights departmental accomplishments that had a significant impact on the District.

Although I joined the organization late in 2008, it is to the credit of a knowledgeable and talented staff that the District transcended some turbulent times. I feel very fortunate to be a part of a strong organization that continues to strive for excellence and understands the need for continuous improvement.

With the economy still in a state of flux, it is our job as a staff to continue to find creative ways to meet the needs of our residents exceed their expectations, while making plans to move the organization in a positive direction. There always will be challenges, but I remain committed, along with the staff and Park Board of Commissioners, to position the Park District to be the community’s recreation provider of choice, known for its excellence in programs, services and operations.

I look forward to continuing to work with Park District staff and board, local key leaders and the community and help make Naperville an even better place to live, work and play.

Ray McGury
Executive Director
The Naperville Park District’s Leadership Team is comprised of directors and managers who direct business efforts on behalf of the District within their areas of specialty. The vast knowledge base and experience of these professionals is represented in the development of organization-wide initiatives such as the Strategic Plan, Master Plan, and several others. The Leadership Team is led by Executive Director Ray McGury.

Ray McGury, Executive Director
Ray McGury joined the Park District in September 2008 with 27+ years of community leadership, education and law enforcement experience. In his role, McGury oversees a budget of more than $34 million and is responsible for the oversight of 100+ regular staff, 1,100 seasonal employees, the operations and maintenance of parks and facilities encompassing more than 2,500 acres, and the offering of 900+ programs for all ages.

Kevin Finnegan, Director of Parks
As the Director of Parks, Kevin Finnegan is responsible for the management of six divisions consisting of Fleet, Trades, North Parks/Riverwalk, Central Parks, South Parks and Park Police, and the operations and maintenance of 139 park sites and more than 40 structures/facilities.

Erin McNulty, Corporate Relations Manager
Erin McNulty is a specialist on developing marketing partnerships that provide her clients with valuable strategies to support their sales and marketing objectives. In turn, dollars obtained through corporate partnerships are an important component to achieving the District’s alternative revenue objectives. McNulty also is responsible for advertising sales and developing new opportunities for revenue generation.

Mindy Munn, Director of Business Services
As the Director of Business Services, Mindy Munn oversees three organizational functions: human resources, technology and accounting. Additionally, she serves as the Park Board-appointed Treasurer of the District. With leadership and expertise in the financial realm, Munn was instrumental in the upgrading of the District’s financial rating to an “Aaa” in 2008, making it one of only three Districts in the state with that status.

Sameera Luthman, Marketing and Communications Manager
Sameera Luthman has worked as a professional in the communications field for the past 17 years; eight of those have been with the Naperville Park District. Luthman leads the development and execution of all marketing initiatives on behalf of the District, including social media, e-mail marketing, publications development including the quarterly Program Guide, public relations efforts, and generating unique marketing solutions to promote the organization.

Ed Provow, Director of Golf Services
As Director of Golf Services, Ed Provow is responsible for the operations and maintenance of both Park District golf courses that produce an average of 40,000 rounds annually and offer numerous leagues, lessons, and special programs. Provow is a 25-year golf professional and a member of the Professional Golfers Association of America.
Katie Sepe, Human Resources Manager

In her role as Human Resources Manager, Katie Sepe is responsible for the administering of employee benefits, overseeing the risk management program, managing recruiting efforts and compensation administration, and handling legal compliance matters. Sepe represents the District on committees through the Park District Risk Management Association and other community groups.

Eric Shutes, Director of Planning

In his role, Eric Shutes oversees the planning and development of the District’s parks and facilities through two primary functions: park planning and capital improvements. Shutes also leads his team in working with the City of Naperville in the administering of the Land Dedication Ordinance and other community projects.

Brad Wilson, Director of Recreation

Brad Wilson began his career with the Naperville Park District in 1998 as an intern from the University of Wisconsin – La Crosse. Upon completion of the internship, he remained with the District as a program manager focusing on the management of youth athletics. Now, as the director, Wilson oversees four primary service areas including Programming, Community Relations, Aquatics and Recreation Support to administer 900+ programs and special events each year that serve tens of thousands of participants.

The Planning and Development Department is tasked with setting the District’s priorities with respect to the use and development of open space. Working closely with residents and the Park Board, the District identifies and pursues projects that meet the recreational needs of a still growing community.

2008 Capital Project Summary
In 2008, the Planning Department surpassed its goal of completing 14 identified projects by more than 100%, thereby finishing a total of 30 primary capital initiatives. Average project completion from 1995-2005 was 15. Overall, the District invested more than $6.3 million for much needed park and facility improvements across the community.

Frontier Park:
The central portion of Frontier Park saw the addition of a picnic shelter, playground and nature overlook with interpretive signage. The inline skating/skateboarding facility also was renovated. Other improvements included the addition of a multi-purpose field on the east side of the site and a trail extension linking amenities and support facilities throughout the complex.

Nike Sports Complex:
Significant renovations included upgrades to the existing sports field, parking lot lighting, ball field fencing, irrigation and overall site drainage, and a new concrete plaza.

Centennial Beach Bathhouse:
The Park District began formulating the Centennial Beach Bathhouse and Site Improvements project, and hosted several open house events to gather feedback from residents and Beach guests. Additionally, the District formed a project review team, comprised of employees and Beach patrons, to provide input and move the project along. Bathhouse improvements will include overall renovations to the facility’s internal infrastructure, and more specifically, will include enhancements to the front entrance area, locker rooms and restrooms, storage areas, and offices. The traffic and pedestrian flow and parking also will be improved as part of the overall project.

The Bathhouse and Site Improvements project is scheduled to begin following the close of the 2010 Beach season, with anticipated completion prior to the start of the 2011 Beach season.

Open Space and Recreation Master Plan:
The Park Board approved the Open Space and Recreation Master Plan (OSRMP), a document that provides an in-depth view of resources, programs, and services of the District, in addition to outlining the many partnerships that benefit the organization. The goal of the OSRMP is to guide the Park District over the next several years by directing initiatives relative to growth and change and ensuring alignment with established organizational goals and priorities.

Trails System:
The Park District relies on partnerships with other agencies to enhance what it offers to the community. The trails system is no different. The District partners with many local and regional agencies to promote trail development throughout Naperville, with an ultimate goal of connecting local and regional routes stretching out in all directions. To date, the Park District has over 59 miles of walking and biking trails throughout its parks system.

The Park District, in cooperation with the City of Naperville and Forest Preserve District of Will County, designed a new, 1.2 mile, multi-use trail in DuPage River Park, which will be constructed beginning in 2009. The project is being supported in part by an Illinois Bicycle Path Grant and a donation from the Forest Preserve District of Will County.

Additionally, in 2008, the District developed a Trails Master Plan per the recommendation of the Open Space and Recreation Master Plan. The Trails Master Plan is a fluid document that will provide guidance in enhancing connectivity for walking and biking throughout Naperville and in adjacent communities. Public input was an integral component in the development of the Trails Master Plan, and helped in the development of a vision statement, design guidelines, and recommendations for implementation.
The Parks Department is comprised of six divisions: Fleet, Trades, Park Police, North Parks/Riverwalk, Central Parks and South Parks.

The Parks Department has been integrally involved in helping the District increase its environmental responsibility. During 2008, the department began working toward switching to B-20 Diesel, which qualifies as a “green” fuel, and researching the possibility of adding hybrid vehicles to its fleet. In 2009, the Fleet division anticipates receiving funds from the Illinois Alternate Fuel Rebate Program.

The Trades Department also made strides toward greater environmental responsibility by undertaking the following improvements in 2008:

- Installation of numerous programmable thermostats, energy-efficient light bulbs, and automatic light fixtures in several District buildings

- A new seal-coating alternative was used at Commissioners Park. This new product is an agricultural oil road treatment that requires less time to cure and increases the seal-coating project interval from 2-3 years to 3-5 years

Recycling
The District expanded its recycling efforts to include Centennial Beach, all sports complexes and indoor facilities. Already, great strides are being made to increase the success of the recycling program, which is evidenced by the following data:

2007
More than 64 cubic yards of plastic bottles were diverted from landfills through the recycling efforts of the District.

2008
One year later, 94 cubic yards of recyclables were collected District-wide.
The Recreation Department is tasked with developing and offering a broad range of high-quality programs and services to meet the needs of a diverse community. Each year, the District provides more than 900 programs and special events that serve tens of thousands of participants each year. The goal is to continue to improve upon the District’s offerings, seek feedback to make improvements, and watch and respond to trends to provide the best possible experience for our users.

2008 General Programs Revenue: $3,835,687

Naperville Indoor Soccer
The Park District teamed up with Players Indoor Sports Center to offer the first Park District indoor soccer program during the winter season. More than 60 teams participated in the first session, with even greater participation during the second session. The indoor program provides players with the opportunity to participate in a recreational soccer program, similar to the very popular outdoor programs offered through Naperville Youth Soccer.

Online Registration Enhancements
The Autumn 2008 registration season marked the first full year of Naperville Park District online registration. Between autumn 2007 and 2008, more than 30,000 registrations took place online, which equates to nearly half of all program registrations received. Offering the online option also has reduced the number of confirmation cards being mailed out through the use of an e-mail confirmation system. This has saved the District approximately $9,000 annually.

Millennium Carillon in Moser Tower
On July 29, 2007, the Millennium Carillon in Moser Tower opened to the public for tours along with the adjacent Visitor Center, and 2008 marked the first full year of tour availability. From May-November, more than 3,000 people climbed to the top of Moser Tower to get a glimpse into what makes the structure so unique, and to enjoy the amazing views of the surrounding area and beyond from the very top.
Despite the downturn in the national and global economy, the economic condition and outlook for the District remained strong throughout 2008. In early 2008, the Naperville Park District’s financial rating was upgraded by Moody’s Investors Service, qualifying the Park District as one of only three in Illinois to have achieved an Aaa rating. Additionally, the District continues to have the highest rated, longest term debt certificate of any park district in Illinois. These indicators are signs of the organization’s sound financial health. This is in spite of the fact that the District continues to operate under a tax cap and has one of the lowest tax rates when compared to other area park districts. As a result, an emphasis continues to be placed on generating alternative revenue sources through grants, donations and corporate partnerships to support the increasing costs of programs and services.

**Independent Audit**

State statutes require an annual audit by independent, licensed, certified public accountants. The Park District engaged the accounting firm of Sikich LLP to perform the audit for fiscal year ending December 31, 2008.

**Award**

Since 1991, the Naperville Park District has received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) of the United States and Canada. This distinction is given to organizations that exhibit excellence in creating and delivering a comprehensive and organized financial report. According to the GFOA, the award is based on the ability of a government agency to develop and make available an annual financial report that conforms to agency standards while satisfying legal requirements and adhering to generally accepted accounting principles.

TOTAL NET ASSETS $150,816,841

Your Tax Dollars

How much of your tax bill goes to the Park District?
As the following pie chart illustrates, only 5% of your taxes are distributed to the Park District. This rate will vary slightly between 4%-5% depending on the school district in which you reside. In the example below, $375 of a $7,500 tax bill would go toward funding Park District operations.

(Example $7,500 * 5% = $375)
As a taxing body operating under a tax cap, the Naperville Park District relies on its ability to obtain support through alternative revenue including sponsorships, grants and donations.

Grants and Donations
In 2008, the Park District was awarded a $400,000 Open Space Lands Acquisition and Development (OSLAD) grant from the Illinois Department of Natural Resources for the redevelopment of the 19-acre Winding Creek Park. The project included the renovation of the playground, two ball fields and the parking lot, and the addition of a picnic shelter, multi-use path, and a nature overlook. This grant project fulfills the needs of both active and passive recreation users, answering the interests of both groups as identified in the Open Space and Recreation Master Plan.

Another OSLAD grant project, which funded $400,000 of the $800,000 in improvements at Frontier Sports Complex was completed. Improvements included the extending of the multi-use trails and sidewalks, expansion of the prairie area, and the addition of a soccer field, playground, shelter and nature overlook.

Sponsorships
We remain committed to continuing to work with area businesses that are interested in associating their image and brand with the Naperville Park District. Public-private partnerships have helped to enhance the community’s experience at Park District programs and events, without increasing operating costs. These partnerships are mutually beneficial, as they generate revenue for the District while providing marketing services for our partners in association with a valued, family-oriented and reputable brand like the Naperville Park District.

Examples of current Naperville Park District partnerships can be found on our website under the heading “Support the Park District.”

In 2008, both golf courses underwent significant renovations to improve the facilities. However, construction delays, in combination with the excessively rainy weather, got the courses off to a slow start. Some of the facility improvements were very visible to the public, while others offered increased efficiencies behind-the-scenes.

Springbrook’s Renovation Projects:
- New irrigation system to provide better water management and improved turf conditions
- Addition of a 17,000 square ft. natural turf practice teeing ground
- A 5,000 square ft. short game practice green/bunkers
- Two, on-course restrooms with flush-water facilities and drinking fountains
- Expanded clubhouse with additional storage and “at the turn” restrooms
- “At the turn” walk-up concessions service window
- Expanded outdoor patio and scoreboard
- Additional parking to accommodate 40 more vehicles, bag drop-off and two entrances/exits
- Expanded cart ramp providing more cart storage space and enhanced staff safety
- New landscaping throughout the course

Naperbrook’s Renovation Projects:
- Four target greens with bunkers on the 10-acre, natural turf driving range
- Two, on-course restrooms with flush-water facilities and drinking fountains
- Relocated cart ramp providing more cart storage and enhanced staff safety
- Expanded office and storage space for the golf shop and food service area
- New landscaping throughout the course

Enterprise Fund
The Naperville Park District golf courses are operated as an Enterprise Fund, which means that they do not receive any tax support. Both courses rely solely on green fees and other golf related purchases to fund their operations, maintenance, capital improvement projects and any debt service incurred by either course.

On-the-Go Pass
In an effort to respond to the increasing need for “staycation” opportunities while expanding the marketing and promotion of our destination facilities along the Riverwalk, the Naperville Park District debuted its On-the-Go Pass over the July 4th weekend. For a discounted price of $15, each pass holder enjoyed a one-time visit to Centennial Beach, the Millennium Carillon and a 20-minute paddle boat ride for up to four people at the Paddle Boat Quarry.

For 2008, On-the-Go Pass sales topped expectations, with 147 passes sold, equating to $2,070 in revenue generated. Additionally, the On-the-Go Passes were brought back for the 2008 holiday gift-giving season with 20 more sold, bringing in $300 in additional revenue.

Summer Camps Guide
There was a new publication that accompanied the Spring 2008 Program Guide delivery; it was the Summer 2008 Camps Guide. In the past, the District made available its summer camps information within the annual Summer Program Guide that was delivered in mid-April. The change was made to not only place a greater emphasis on the availability of the District’s summer camps, but to launch the information earlier to help families plan their summer schedules.

With a greater emphasis on its summer camps offerings through the Summer 2008 Camps Guide, the Park District increased participation in its camps by 600 participants and realized an increase in revenue of $90,000.
The Park District’s volunteer program continues to be a vital component in the success of the organization. Volunteers of all ages help keep programs affordable through their donation of time and talent, while strengthening the connection between the Park District and the community.

In 2008, more than 2,400 volunteers contributed over 76,700 hours of service, assisting with a multitude of sports, special events, programs of all types, office projects, and planning and park maintenance. According to Independent Sector’s most recent standard, the value of volunteer hours for 2008 equated to more than $1.4 million.

The South Maintenance Facility, located near Frontier Sports Complex, received Silver LEED Certification under the U.S. Green Building Council’s LEED-NC 2.1 rating system. This facility, which opened for use in 2007, was the first LEED-certified facility in Naperville.

The Illinois Association of Park Districts honored the Naperville Park District with its prestigious Partnership Award. It recognized the cooperative relationship between the District, City of Naperville, and the Millennium Carillon Foundation, for the purpose of promoting, maintaining and operating the Millennium Carillon in Moser Tower.

In the fall, Arrowhead Park took third place and a $5,000 prize in the Staples Dream Park Challenge; the office supply giant hosted the contest that was driven by online voting. The funds are earmarked to support the 2009 renovation of the playground and ball field at Arrowhead Park.
The Naperville Park District makes it easy to stay in touch throughout the year. We’d love to hear from you if you have questions or comments about our programs and services. Each of the following means of communication provides a valuable connection with the organization.

**Phone:**
Give us a call at 630-848-5000, and one of our knowledgeable staff members will find the answers to your questions.

**Online:**
Visit us at www.napervilleparks.org to learn more about Naperville Park District programs and services.

**E-mail:**
Register to receive our monthly e-mail newsletter, and occasional e-mail messages about important Park District information. Simply visit www.napervilleparks.org and enter in an e-mail address in the field that says, “Sign-up to receive our e-news!”

**Social Media:**
Join the social media conversation and follow the Naperville Park District on Facebook, Flickr and LinkedIn.

**Blog:**
Read our Park Talk blog for insight on projects and more that are going on at the Park District. The Park Talk link can be easily accessed from the home page of our website.

**Info E-mail:**
Do you have a question? Send it to info@napervilleparks.org. One of our staff members will respond in a timely manner.

**Park Board Meetings:**
Attend a regular meeting of the Park Board of Commissioners and stay in touch with what’s going on with local government. Meetings are held the second Thursday of the month at the Naperville Municipal Center. Meetings also are broadcast on WCNC, Naperville’s Hometown News Network, and rebroadcast on NCTV17. Archived board meetings can be accessed in the “About Us” section of the Park District website.
